## EQUUSOMA® Level 2

### \*Route 1, with group consultations

**Note:** Completion of Level 1 is required to progress to Level 2. Student progression through Level 2 may vary pending local and global pandemic restrictions. We encourage caution, safety, and wellbeing during these unprecedented times. Adjustments will be considered on a case-by-case basis to balance program requirements, individual circumstances, and learning goals.

**The individual consultations and final review for completing the assignment must be with a faculty member			

- Personal sessions of Somatic Experiencing® can be completed by video, to accommodate current pandemic restrictions and also to accommodate students who are located in areas where there are no approved credit providers.
- Students who prefer to complete their personal sessions live in person may do so. However, this may create delays in the time required to progress through the training if they are unable to locate someone who is offering sessions in person due to pandemic restrictions
- Exceptions may be made on a case-by-case basis at the discretion of the faculty team (for e.g., if a student wishes to do their personal sessions with a provider who speaks their first language, and that provider is an SEP who is not yet an approved provider via SEI at the advanced level).
- For details about approved providers, see: <https://equusoma.com/students/approved-credit-hours/>
